

Login

→ bean.set Id (us.get login)
→ psat.set string (bean.get id)

1. Input Flow? 2. Validate Kab Kab chalti h?
3. Base H Kiski Method h? 4. Service Kab chalti h?
5. Input Definition? 6. Validate Kab nhi chalegi?
7. Validate return type? 8. get string m kya h?
9. Validate Condition? 10. model ki authenticate m kya h?
11. Validate kiski h? 12. Return type kya h authenticate ka?
13. Operation ko kase get kija? 14. Kya parameter h?
15. Input Message set on get? 16. Servlet Utility ki set Error Message m kya h?
17. Data validation kya h? 18. Business message set on get
19. Is Null return type? 20. Input field kase bani login par?
21. Is Null m kya h? 22. Button kase bani?
23. Is Email kiski h? 24. Forget ki link kase bani?
25. Is Email m kya h? 26. path kya h?
27. Is Email ka return type? 28. Data utility ke get string Data ka return type?
29. Error message ko liye kya kija? 30. on kya h usme?
31. Property Re add kya h? 32. Login ke Component?
33. get value m kya h? 34. user Model signature?
35. return type get value? 36. Go Maksheet model signature?
37. populate bean m kya kija? 38. Servlet Utility ke redirect m kya h?
39. Return type populate bean? 40. Login ctrl pe mapping kase ki h?
41. populate bean kya return karke h? 42. authenticate ki query kya h?
43. System properties kya h? 44. Business Validation ki definition?
45. Kon se parameter? 46. Sign In flow?
47. Link pe kya perform hoga? 48. Sign up flow?
49. ORS View kya h? 50. Forget my password flow?
51. Usme kya kija h? 52. Sign up pe service kitni baar chali?
53. ORS View kya provide karu h?

What is Include Didectly
object All →

Model

Public int NextPK → PK+1
Public long add → PK →
Public void Delete → X
Public UserBean FindBy Login →
Public UserBean Find by PK →
Public void Update →
Public List Search →
Public List getRole →
Public UserBean authenticate
Public boolean changeP
Public long Register use
Public boolean forgetP

What is Include Directive tag?
object All →

Model

public int NextPK → PK+1
public long add → PK → (find by login)
public void Delete → X
public UserBean FindByLogin → bean
public UserBean FindByPK → bean
public void Update → X
public List Search → list
public List getRole → list
public UserBean authenticate → bean
public boolean ChangePassword → (FindByPK)
public long RegisterUser → PK (add)
public boolean forgetpassword → flag (Find by Login)

POP3

- ✓ Forget your password kon se tag me h? (30) mail receive kya h?
- ✓ Submit line kon se tag me h? (31) Kon sa protocol use hua?
- ✓ Input Field kaise banai? (32) port me kya h?
- ✓ Go ka button kaise banaya? (33) Receive ke liye kon sa use karte h?
- ✓ Reset ka flow? (34) Receive ke port me kya h?
- ✓ Input validation flow? (35) full form kya h?
- ✓ Business validation flow? (36) populate Bean me kya h?
- ✓ Go ka flow? (37) Mapping kaise ki h?
- ✓ Email Id kon se tag me h? (38) Servlet Utility ki success method me kya h?
- ✓ Message send ke liye kya kiyah? (39) setSuccess Message return type?
- ✓ Email Utility me kya h? (40) Redirect me kya h?
- ✓ Email builder me kya h? (41) get view kiski h?
- ✓ Email message me kya h? (42) JSP UseBean tag kya h kaise banaya?
- ✓ Email message me kaise message h? (43) Email builder method return type? String
- ✓ Email builder me kitni method h? (44) System . properties se parameter get
- ✓ model ki forget password ka return type? Kaha kiye h? (Email Utility)
- ✓ Query kya chahi? (45) kaise kiye h? (get string)
- ✓ Kya pass kiyah? (46) Send mail me kya kiyah?
- ✓ Forget password me kya kya.
- ✓ Condition kya h Forget password pe?
- ✓ Exception kon si throw hui?
- ✓ Email kon si line pe send hua?
- ✓ & predefined class ka use kaha kiyah?
- ✓ Success message kaise raya?
- ✓ Dependency kon si add ki?
- ✓ System . properties me kon se parameter?
- ✓ Find by login ka return type kya h? User bean
- ✓ Query kya h?

User Registration.

1. User Registration kon se tag m h? (15) is Name? ✓
2. Success or Business validation message kon se tag m h? (25) is Email? ✓
3. User registration ke Component? (30) is password? ✓
4. Input field kese banai? (35) se pwd equal ke liye kya h? ✓
5. Business validation kaha perform hoga? (40) Calendar library kon se tag m h? ✓
6. Gender field kese banai? (45) Function kaha banaya? ✓
7. -- Select -- kese aaya? (50) kya kya function m? ✓
8. Dob field kese banai? (55) HTML Utility ki get List m kya h? ✓
9. Dob ke liye kya kya? (60) String Buffer object kese banate h? ✓
10. Mobile ko pattern kese set kiyi? (65) password me ... kya h? ✓
11. Max len Max 10 mobile ke liye kya kya? (70) Sing up flow Right? ✓
12. Password or Confirm password ke liye kya kya? (75) Success message kaise aya? ✓
13. Sing up Button kese banaya? (80) Signature. ✓
14. Input validation flow? ✓
15. Business validation flow? ✓
16. Password ke pattern match na hone par message kaise aya? ✓
17. Mobil m Latten type na karne ko ta? ✓
18. Confirm password message kaise aya? ✓
19. Is dob Right m kya h? ✓
20. Registration pe kon register hoga. 2 Condition kya h? ✓
21. Model ki register user me kya h? (bean, set, role, Id (RoleBean, Student)) ✓
22. Query kya chahi? ✓
23. Exception kon si ayegi? ✓
24. Reset flow kya kya h? ✓
25. Do get m kya h? ✓
26. Dob ke age ke liye, Data Validation ki is age m kya h? ✓
27. Is mobile nu m kya h? ✓

Forget password.

1. Forget your password kon se tag m h? (10) ✓
2. Submit line kon se tag m h? (15) ✓
3. Input Field kese banai? (20) post ✓
4. No ka button kese banaya? (25) Rec ✓
5. Reset ka flow? (30) Rec ✓
6. Input validation flow? (35) full ✓
7. Business validation flow? (40) po ✓
8. No ka flow? (45) Ma ✓
9. Email Id kon se tag m h? (50) ✓
10. Message send ke liye kya kya? (55) ✓
11. Email Utility m kya h? (60) ✓
12. Email builder m kya h? (65) ✓
13. Email message m kya h? (70) ✓
14. Email message m kaise message h? (75) ✓
15. Email builder m kitni method h? (80) ✓
16. Model ki forget password ka return? (85) ✓
17. Query kya chahi? (90) ✓
18. Kya pass kya? (95) ✓
19. Forget password m kya kya? (100) ✓
20. Condition kya h Forget password? (105) ✓
21. Exception kon si throw hui? (110) ✓
22. Email kon si line pe send hui? (115) ✓
23. Predefine class ka use kaha? (120) ✓
24. Success message kaise aya? (125) ✓
25. Dependency kon si add ki? (130) ✓
26. System properties m kon se? (135) ✓
27. Find by login ka return type? (140) ✓
28. Query kya h? (145) ✓
